

# Turning Technologies Student Clicker Guide

**Note: Some XR clickers are white and orange and others are blue and gray. Color does not affect function.**

## Turning Technologies Student Device Registration

To register a Turning Technologies clicker device in an eLearning course, follow the steps below.

1. Open the eLearning course and click on the Turning Technologies Clicker Registration icon.
2. Locate the **Device ID** on the back side of your clicker. This number appears below the barcode on the clicker.
3. Enter the **Device ID** in the **Response Device ID** field and **Confirm Response Device ID** field in your eLearning course. **Note that all 0's in the Device ID are zeros and all 1's are number ones.**

Response Device ID:

Confirm Response Device ID:

4. Click the **Submit** button.

## Student Instructions for Changing Turning Technologies Clicker Channels

1. Press any button on the clicker to turn it on.
2. Press the blue or orange Menu button until you see the list starting with **Presentation**.
3. Press the **Yes/Down** arrow key to select **Change Channel** and press the **Enter** key located above and to the left of the **1/A** key.
4. When the **Current Channel – New Channel #?** Screen appears, press the desired channel on the keypad.
5. Press the **Enter** key located above and to the left of the **1/A** key.
6. When the clicker has successfully located the receiver it will display, "Channel Changed. Receiver Found". The clicker is now ready to communicate with the classroom receiver.
