ResponseWare App for Apple Devices

ResponseWare turns a participant’s web-enabled mobile device or tablet into a virtual clicker. Participants are able to respond to polling questions using a Wi-Fi or data connection.

Using ResponseWare on your Apple Device

1. Open **ResponseWare** on your iOS device.

![ResponseWare App](image)

2. Enter the **Session ID** provided by your instructor in the *Enter Session ID* space.
3. Tap the **Join Session**.
4. Your instructor may require you to create or sign in to your Turning account in order to participate. If you do not have an account, simply click the **Create an Account** link and follow the on-screen instructions.
5. If prompted, enter additional information, such as first and last name, email address, or User ID. Required information must be entered.
6. Tab **Submit**.
7. The questions will appear on-screen after your instructor opens polling. Tap the button that corresponds to your answer choice.
Responding to Multiple Choice Polling Questions

1. After polling is opened, the question and answer choices are displayed.

   Portugal is located on which continent?
   A. South America
   B. Europe
   C. Africa
   D. Asia

2. **Tap** the number or letter that corresponds with your answer choice.

3. Once polling is closed, the results will be displayed.
Responding to Short Answer, Numeric, or Essay Questions

1. After polling is opened, the questions will be displayed.
2. Tap the **Enter Answer** field, the on-screen keyboard should then be displayed.
3. Enter a response by typing your answer choice.

4. Tap **Send**.

Responding to Multiple Response Questions

1. After polling is opened, the question and answer choices are displayed.
2. Tap the number(s) or letter(s) that correspond to your answer choice(s).

3. Once polling is closed, the results will be displayed.
Prevent Auto-Lock

1. Click the icon of three lines in the top left of your device.
2. Click Settings.
3. Click the gray circle beside Prevent Auto-Lock to ensure your phone doesn’t hibernate.
