The TurningPoint PowerPoint Polling clicker system allows instructors to ask questions within PowerPoint on a Mac and receive student clicker responses. This tutorial will guide you through using PowerPoint Polling after TurningPoint has been installed on your computer.

*Note: If this is the first time you’ve opened the TurningPoint software, you will have to select North/ South America. Click Connect.

Enter your myBama email address and click Sign In. On the next screen, enter your myBama username and password and click Submit.
Exporting Results to Blackboard

1. Once polling has been completed, click on the TurningPoint tab on the top-left Mac menu bar and select Close and Return to TurningPoint Dashboard. Select the Manage tab.

2. Select **Session > Import**. Navigate to your session file and click **Open**. Note: If you did not poll with your participant list attached, your session will go to the **Auto** participant list.

3. Click the arrow to the left of the word Auto, select your newly imported session, and drag the session to the correct participant list.
4. Select the **Course**. Click **Results Manager**.

5. Select **Integrations** and then choose **Blackboard SSO** as the Integration. Enter the server address [https://ualearn.blackboard.com](https://ualearn.blackboard.com) and select **Connect**.
When the Blackboard login page appears, enter your myBama credentials and hit enter or click login.

6. Select Export Sessions(s) and then select the column(s) of grades that you will export to Blackboard. Select Export.

7. A window will appear informing you how many column(s) you have selected. Select Export to complete uploading grades to Blackboard.
