The TurningPoint PowerPoint Polling clicker system allows instructors to ask questions within PowerPoint on a PC and receive student clicker responses. This tutorial will guide you through using PowerPoint Polling after Turning Point Cloud has been installed on your computer.

*Note: If this is the first time you’ve opened the TurningPoint software, you will have to select North/South America. Click Connect.

Enter your myBama email address and click Sign In. On the next screen, enter your myBama username and password and click Submit.
Exporting Results to Blackboard

1. Open the TurningPoint application.
2. Navigate to the TurningPoint Manage tab.
3. Select Session > Import. Navigate to your session file and click Open. Note: If you did not poll with your participant list attached, your session will go to the Auto participant list.
4. Click the arrow to the left of the word Auto, select your newly imported session and drag the session to the correct participant list. Click **Results Manager**.

![Results Manager](image1)

5. Select **Integrations** and choose Blackboard SSO from the Integration drop-down menu. Enter **https://ualearn.blackboard.com** as the Server Address and select **Connect**.

![Integrations](image2)
6. Select **Upload Grades** and select column(s) of grades to export to Blackboard. Select **Export**.

![Image of the Update with Integration dialog box with options for Update Course and Upload Grades, and a list of columns to export.]

7. A window will appear confirming the number of columns selected. Select **Export** to complete uploading grades to Blackboard.
