Adding TurningPoint Clicker Registration to Your Blackboard Learn Course

In order for an instructor to identify which students gave which clicker responses to questions, the students register their clickers through a link in their Blackboard course for their class. Instructors must add the TurningPoint Registration Tool to your Blackboard Learn course so that the students can register their clickers.

1. Click the Plus Sign in the top left of the Course Menu
2. Click on the Tool Link option.

3. Name the tool. We recommend “Register Clickers Here.”
4. Choose Clicker Registration.

5. Check Available to Users.
6. Click **Submit**.

Note: Adding this to your course will enable your students to register their clickers for use in your class. Each student will need to click on the registration link, create a Turning account, redeem their license, and register their device.
