

Assigning Student Recordings

By default, the student recording option is disabled in Tegrity. However, if you would like to have your students create their own Tegrity content, you can enable this function through your Tegrity course page. *Please Note: Students **cannot** edit or delete their recordings once they have been uploaded.*

Enabling Student Recording

1. From inside your Tegrity course, click on the **Course Tasks** button and select **Course Settings**.

2. Place a check mark next to **Allow students to record**, and then click **OK**.

Course Settings

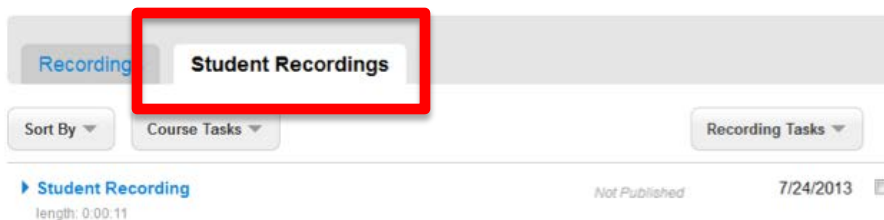

Recording

- Enable minute counter
- Allow students to record

Publishing

- Publish recordings after upload
- Automatically publish student recordings
- Require authentication by default for direct recording links

3. Once students upload their recordings, they will appear under the **Student Recordings** tab on your Tegrity course page.

For more information, contact the Faculty Resource Center at 205.348.3532 or frc@ua.edu or visit our website at <http://frc.ua.edu>.
