COMBINING BLACKBOARD LEARN SECTIONS

NOTE: Combining Blackboard Learn Sections will make any content and student data from the sections you are choosing to combine unavailable. Contact the FRC at 348-3532 for assistance if your sections have content that needs to be retained.

Warning: Do not combine small sections such as lab or recitation sections with lecture sections where those same students are enrolled. The Blackboard grade import is unlikely to work when sections containing students enrolled in 2 or more of the sections are merged.

Please contact the Blackboard Learn Team at 348-3532 or blackboard.learn@ua.edu if you do not see the sections that you would like to combine, if you wish to combine sections from several academic terms, if you wish to combine your sections with those taught by another instructor, or if sections need to be uncombined.

1. To combine sections in Blackboard Learn, begin by choosing Blackboard Learn for each section that should be combined by following the steps given above. Once these sections are available in Blackboard Learn, they can be combined.
2. From the Blackboard Learn Section Maintenance page, click on **Choose a Term** to choose the desired term. If you have just made sections available in Blackboard Learn, the desired term may already be selected.
3. Click on the tab **Combine Sections in Blackboard Learn**. A list of **Combined** and **Ungrouped** sections appears.
4. Check the boxes next to the sections you would like to combine in Blackboard Learn.

5. Click **Combine Sections into Supersection.**
