The TurningPoint PowerPoint Polling clicker system allows instructors to ask questions within PowerPoint on a PC and receive student clicker responses. This tutorial will guide you through using PowerPoint Polling after Turning Point Cloud has been installed on your computer.

Begin by opening TurningPoint application software.

*Note: If this is the first time you’ve opened the TurningPoint software, you will have to select North/South America. Click Connect.

Enter your myBama email address and click Sign In. On the next screen, enter your myBama username and password and click Submit.
Exporting Results to Blackboard

1. Open the TurningPoint application.
2. Navigate to the TurningPoint Manage tab.
3. Select Session > Import.
Navigate to your session file and click **Open**.

If you did not poll with your participant list attached, your session will be filed under the **Auto** participant list. Click the arrow to the left of **Auto** to display the newly-imported session below it. To move the session, click and drag the file to the correct participant list.
4. While the session is selected, click **Results Manager**.

5. Select **Integrations** and choose Blackboard SSO from the Integration drop-down menu. Enter **https://ualearn.blackboard.com** as the Server Address and select **Connect**.
6. Select **Upload Grades** and select column(s) of grades to export to Blackboard. Select **Export**.

7. A window will appear confirming the number of columns selected. Select **Export** to complete uploading grades to Blackboard.
