

TurningPoint – PowerPoint Polling for PC After Class

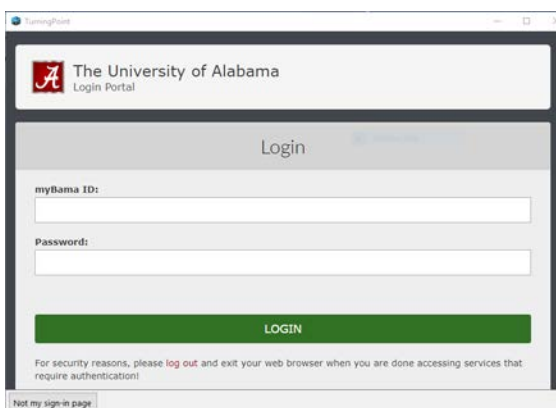

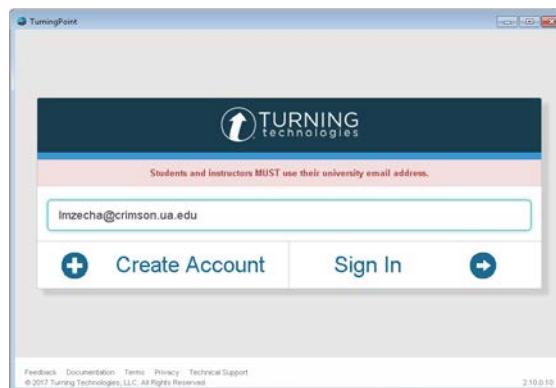

The TurningPoint PowerPoint Polling clicker system allows instructors to ask questions within PowerPoint on a PC and receive student clicker responses. This tutorial will guide you through using PowerPoint Polling after Turning Point Cloud has been installed on your computer.

Begin by opening TurningPoint application software.

***Note:** If this is the first time you've opened the TurningPoint software, you will have to select North/South America. Click **Connect**.

Enter your myBama email address and click **Sign In**. On the next screen, enter your myBama username and password and click **Login**.

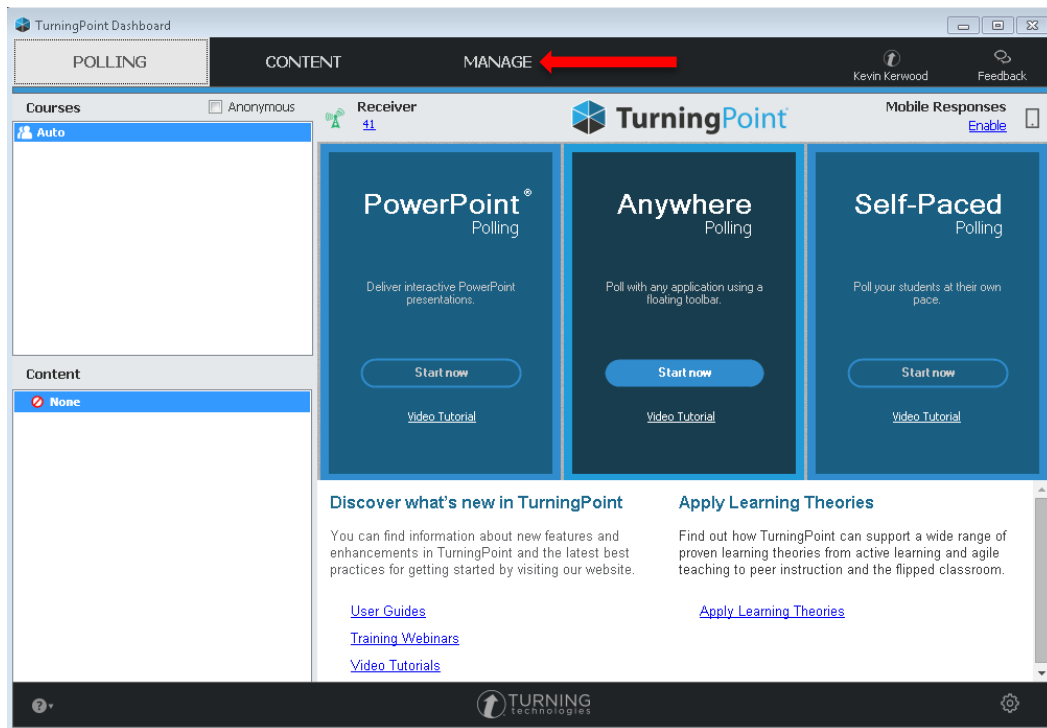

Exporting Results to Blackboard

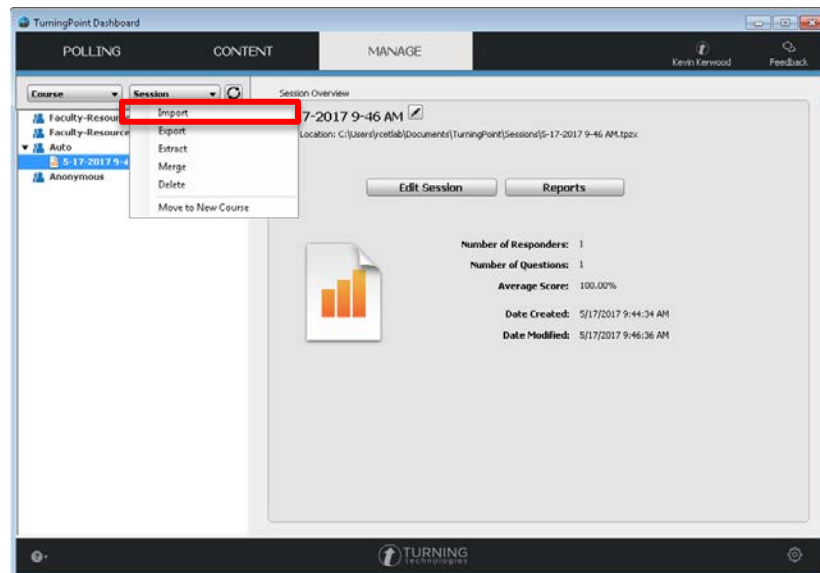

TurningPoint

1. Open the TurningPoint application.
2. Navigate to the TurningPoint Manage tab.

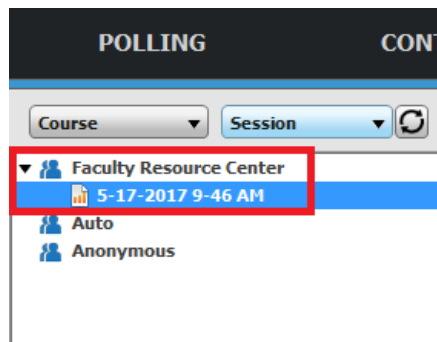

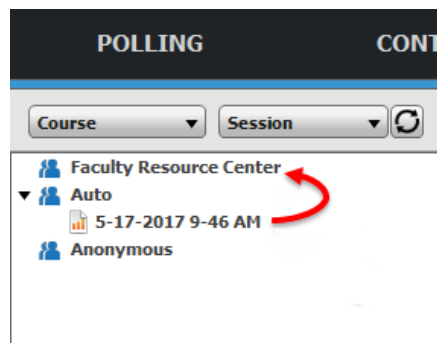

3. Select **Session > Import**.

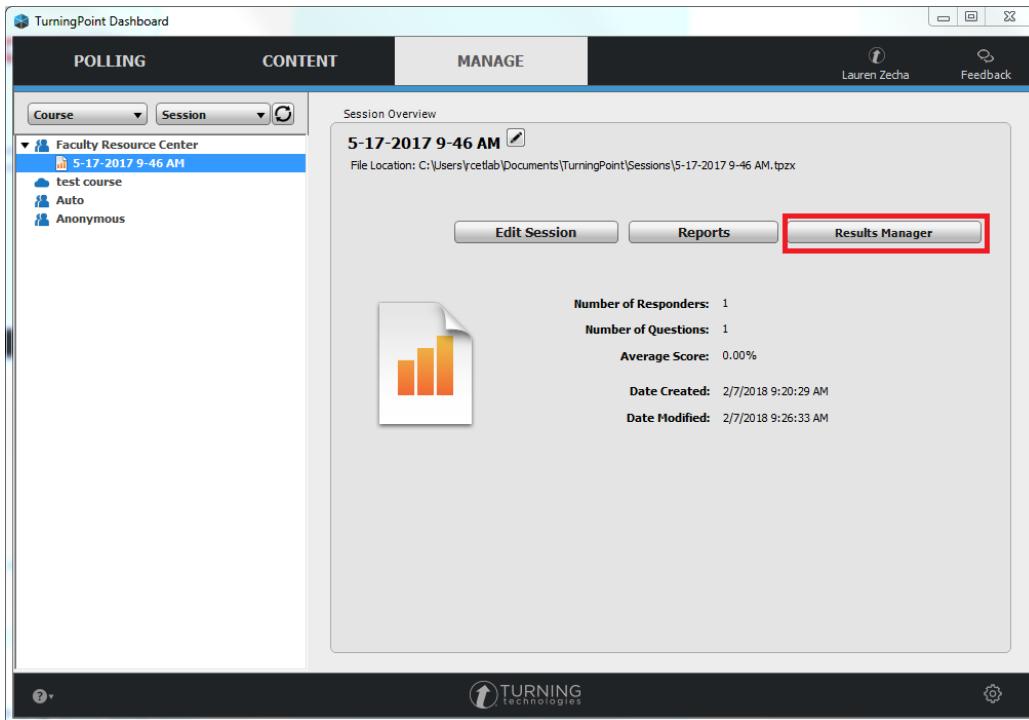

Navigate to your session file and click **Open**.

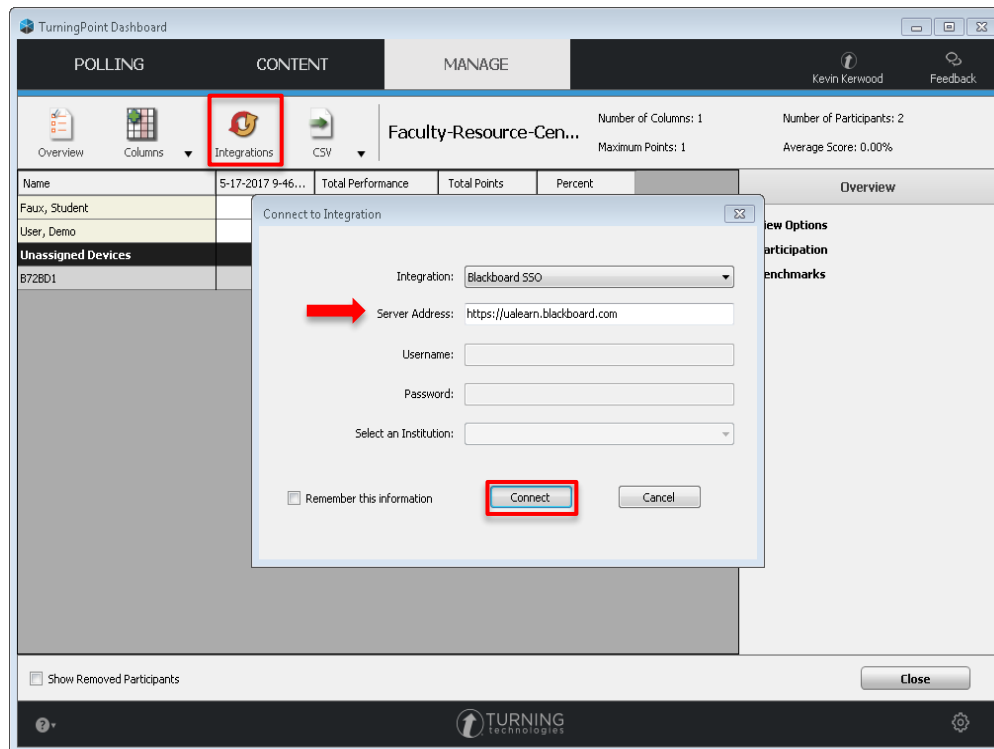

If you did not poll with your participant list attached, your session will be filed under the **Auto** participant list. Click the arrow to the left of **Auto** to display the newly-imported session below it. To move the session, click and drag the file to the correct participant list.

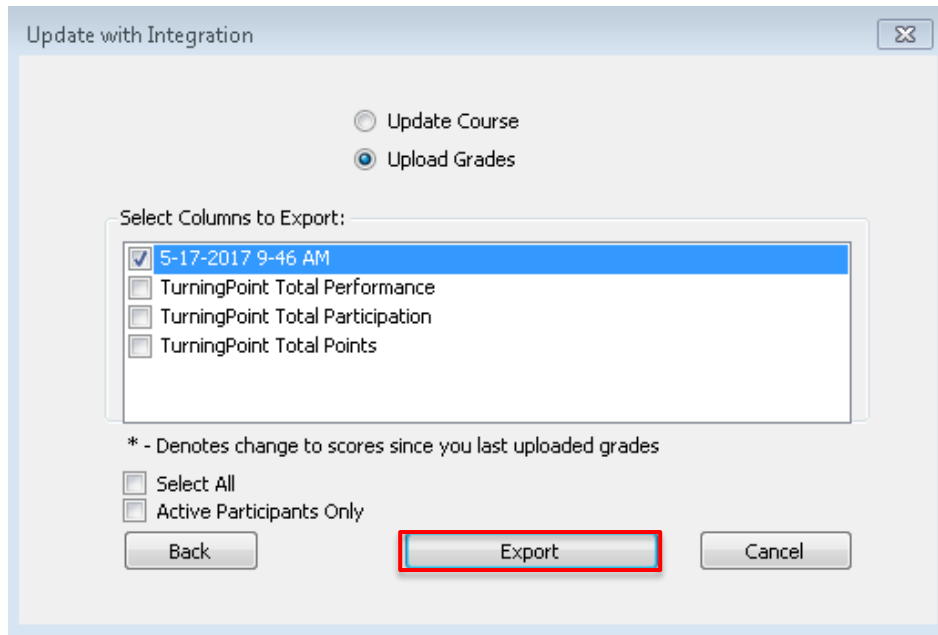

4. While the session is selected, click **Results Manager**.

5. Select **Integrations** and choose Blackboard SSO from the Integration drop-down menu. Enter <https://ulearn.blackboard.com> as the Server Address and select **Connect**.

6. Select **Upload Grades** and select column(s) of grades to export to Blackboard. Select **Export**.

7. A window will appear confirming the number of columns selected. Select **Export** to complete uploading grades to Blackboard.
